

Student Academic Performance Report

Sample PDF dataset for testing a Student Data AI Agent

1. Executive Summary

This report contains academic and demographic information for a sample group of students. It is intended for testing document extraction, question answering, aggregation, comparison, and chart-generation capabilities in an AI data-analysis project.

Metric	Value
Total Students	150
Departments	6
Courses	3
Cities Represented	10
Academic Years	1 to 4
Subjects	Maths, Programming, Database, Communication, Aptitude

2. Department Performance

Department	Students	Avg. Marks	Avg. Attendance	Pass Rate
Computer Science	28	72.4	84.7%	89.3%
Information Technology	27	75.1	86.2%	92.6%
Electronics	25	68.8	80.5%	84.0%
Mechanical	24	66.9	78.9%	79.2%
Civil	23	64.7	76.8%	73.9%
Electrical	23	70.6	82.1%	82.6%

3. Subject-wise Performance

Subject	Average	Highest	Lowest	Pass Rate
Maths	70.8	100	35	88.0%
Programming	73.6	100	30	90.7%
Database	69.9	100	35	86.7%
Communication	76.2	100	40	94.0%
Aptitude	67.5	100	30	82.7%

4. Attendance Analysis

Attendance Range	Students
90% - 100%	31
80% - 89.9%	48
75% - 79.9%	32
60% - 74.9%	29
Below 60%	10

5. Scholarship and Internship

Students are categorized by scholarship and internship participation. These fields can be used to test filtering, counting, grouping, and comparative analysis.

Category	Students
Scholarship: Yes	61
Scholarship: No	89
Internship: Yes	74
Internship: No	76

6. Sample Student Records

ID	Student	Dept.	Year	Attendance	Avg.	Result
STU001	Aarav Patel	Computer Science	3	91.5%	82.4	Pass
STU002	Diya Shah	Information Technology	2	87.2%	78.6	Pass
STU003	Rohan Mehta	Mechanical	4	72.4%	61.8	Fail
STU004	Kavya Joshi	Electronics	1	95.1%	88.2	Pass
STU005	Dhruv Desai	Civil	3	68.7%	57.4	Fail
STU006	Isha Trivedi	Electrical	2	83.6%	74.8	Pass
STU007	Parth Dave	Computer Science	4	97.2%	91.0	Pass
STU008	Meera Modi	Information Technology	1	79.5%	69.6	Pass
STU009	Harsh Patel	Electronics	3	74.2%	63.1	Fail
STU010	Saanvi Shah	Electrical	2	89.4%	81.7	Pass

7. Suggested Questions for Testing

- What is the average marks mentioned in the report?
- Which department has the highest average marks?
- Which subject has the best pass rate?
- How many students have attendance below 75%?
- Compare Computer Science and Mechanical performance.
- What percentage of students have internships?
- Which subject has the lowest average?
- Create a graph of department-wise average marks.
- Create a graph comparing subject-wise performance.
- Summarize the key findings from this report.
